RE: Hurricane Harvey Relief Efforts

To all Meggett Residents,

No matter where you live in our country today, we've all had the opportunity to view the devastation in Texas due to Hurricane Harvey. Most have already lived through a major hurricane and know firsthand the challenges that follow in the wake of the storm. Along with Meggett Town Council, I am asking for donations from residents who would like to help in the hurricane relief efforts.

Council Member Keith McCarty has been in touch with one of the local town leaders to learn about their needs and how our donations can best be used to help. Our goal is to collect donations to purchase supplies for those affected by the hurricane.

While Council Member McCarty is gathering information from his contacts in Texas, which will be shared with you as information is received, I am working with Stephanie Smith, our Town Administrator, to spread the word to our residents and neighbors about the relief efforts and how to donate.

We will keep you all updated on the Town's website, a page will be dedicated to **Hurricane Harvey Relief Efforts**, that will include updates, details of how to donate and who we are coordinating with in Texas.

Please contact me or Stephanie with any questions you may have regarding our relief efforts.

Sincerely,

Buster Herrington  
Mayor  
Meggett, SC
